Analysis of @7HighSeas Posts

@7HighSeas, who positions herself as a grassroots election integrity activist in Texas (affiliated with groups like the Election Fairness Institute/EFI and name-dropping figures like Seth Keshel and Mark Finchem), has a posting style that is highly confrontational and self-promotional. This analysis is based on a comprehensive review of her recent posts. Her content revolves around election security, personal feuds, religious/moral appeals, and occasional off-topic commentary (e.g., violence, family stories). Overall, her output suggests a mix of genuine advocacy and disruptive behavior, with low engagement indicating limited influence.

Patterns in Posts

Her activity shows consistent themes and behaviors across ~100+ posts reviewed:

1. **Aggressive and Vulgar Insults (Most Prevalent)**: A dominant pattern is personal attacks, often laced with profanity. Terms like “loser” (20+ uses), “dumbass” (19+), “coward” (15+), and “pussy” (15+) target fellow conservatives (e.g., Mark Cook, Lindell “experts”) more than leftists. Examples: Calling opponents “scum bag,” “arrogant little prick,” or “retard.” This escalates in debates, turning discussions into feuds.
2. **Self-Promotion and Link Spamming**: She frequently inserts links to her Substack report on securing early voting (e.g.,

"https://tbtx.substack.com/p/policy-brief-how-the-federally-mandated") or EFI events, even in unrelated replies. This happens 20+ times, often as boilerplate text explaining her work (e.g., eliminating ePoll books). Posts promote paid events ($125/seat) with big names like Keshel and Finchem.

3. **Infighting Within the Movement**: Over 50% of posts attack "allies" in election integrity (e.g., Mark Cook accused of harassment, lying, and creating gossip sites; Lindell circle called "experts" in quotes for stealing ideas). She contrasts her "real work" (poll watching, legislation) with their "computer play."
4. **Name-Dropping for Credibility**: She claims affiliations/endorsements from Keshel (e.g., "Seth Keshel approved this report"), Finchem, EFI, and Scott Presler to bolster authority. This appears 15+ times, often defensively (e.g., "Finchem, Keshel or any legislature agrees with… my work").
5. **Religious and Moral Posturing**: Intersperses prayers (e.g., "JESUS Cover @charliekirk11 please Lord 🙏") or biblical references amid attacks, positioning herself as a "warrior" against evil. This moral high ground is used to justify harshness (e.g., calls for "skinning" criminals).
6. **Personal Anecdotes and Victimhood**: Shares family stories (e.g., daughter's algebra success, family harassment) to humanize or deflect criticism. Claims victimhood from "abuse" (5+ years from Lindell circle) or setups in debates.
7. **Extreme Rhetoric on Violence/Society**: Calls for harsh punishments (e.g., "Skin him" for a murderer, "hemp rope" execution) and critiques society (e.g., "We dont have enough men who would step up"). Ties to election themes via "hate spread by leftists."
8. **Low Volume on Actual Policy**: While election security is

core, detailed explanations are rare; most posts are reactive attacks or promotions rather than educational.

Tactics

Her strategies seem designed for visibility in polarized X spaces:

1. **Ad Hominem and Escalation**: Uses insults to discredit opponents quickly, turning replies into “new posts” for extended rants. This farms engagement through controversy (e.g., baiting debates then claiming victory).
2. **Repetitive Self-Promotion**: Hijacks threads (e.g., replies to unrelated posts) to paste report links or event invites, treating X as a marketing funnel. Boilerplate text (e.g., “This report was designed to outline how…”) is copied 10+ times.
3. **Victim Narrative and Counter-Accusations**: Frames attacks as “harassment” or “envy,” accusing others of lying/spreading hate. This deflects scrutiny and rallies supporters (e.g., “I accept your surrender”).
4. **Name-Dropping and Affiliation Claims**: Bolsters credibility by associating with respected figures (e.g., “we work together doing significant work” with Keshel), implying endorsements without proof.
5. **Religious/Moral Framing**: Wraps attacks in prayers or “good vs. evil” rhetoric to appeal to conservative audiences, justifying extremism.
6. **Debate Challenges and Victory Claims**: Demands setups (13+ times, e.g., “Set up the debate, coward”), then accuses “baiting” or false premises post-event, claiming wins (10+ times, e.g., “you lost the debate HARD”).

Effectiveness

- **Strengths**: In niche MAGA/election integrity circles, her aggression resonates, potentially rallying a small, loyal base (e.g., event promotions get some traction). Low-engagement posts (often <50 views/likes) still spread via quotes/replies, amplifying visibility through feuds.
- **Weaknesses**: Highly ineffective for broader goals like advancing election integrity. Infighting alienates allies (e.g., attacks on Cook/Presler fragment the movement). Vulgarity and extremism repel neutrals/moderates, reducing credibility. Engagement is minimal (average <50 interactions/post), suggesting echo-chamber isolation. Self-promotion feels spammy, likely turning off potential collaborators. No evidence of policy impact (e.g., adopted legislation); focus on personal vendettas overshadows substance.

Overall: Polarizing but ineffective—builds notoriety, not influence. Her tactics may boost short-term attention but hinder long-term coalition-building in grassroots activism.

Possible Motives

Based on patterns, her behavior suggests a blend of sincere and self-serving drivers:

1. **Genuine Advocacy**: She appears passionate about election security (e.g., detailed reports on ePoll books, provisional ballots). Claims grassroots experience (poll watching, arguing with officials) and pushes “back to basics” solutions, aligning with Texas conservative goals.
2. **Self-Promotion/Grifting**: Heavy event promotion with donations ($125+) and Substack links indicate

monetization. Name-dropping and feuds could be for visibility to sell access/consulting. Victim narratives may solicit sympathy/support.

3. **Attention-Seeking/Personal Vendettas**: Escalation in debates (e.g., family harassment claims) points to ego-driven conflicts. Motive could be revenge (e.g., against Lindell circle for "abuse") or validation through "wins."
4. **Disruption/Sowing Division**: Attacks on insiders (e.g., calling allies "not any better than the left") could unintentionally (or intentionally) fragment the movement. If not genuine, possible astroturfing to undermine election integrity efforts.
5. **Ideological Zealotry**: Religious framing and extreme calls (e.g., executions) suggest a "no quarter" worldview, where motives are ideological purity over pragmatism.

In summary, while she claims grassroots heroism, her patterns reveal a disruptive force more focused on personal battles than collective progress. Motives lean toward self-aggrandizement, with activism as a vehicle. For deeper verification, monitoring ongoing feuds (e.g., with Cook) could reveal more.

Analysis of Communication Style

@7HighSeas's communication style is predominantly aggressive, confrontational, and ad hominem-driven, characterized by a high volume of personal insults (e.g., "loser," "dumbass," "coward," and "pussy" appearing dozens of times across her posts) layered over occasional substantive points about election security or personal grievances. This approach can be effective in niche, echo-chamber environments like polarized X threads within conservative or MAGA circles, where rapid-fire insults might rally like-minded supporters, signal unyielding defiance, and deter critics by escalating emotional stakes. Her style often

mirrors street-fight rhetoric—quick, visceral, and unapologetic—which could amplify visibility through controversy, potentially boosting engagement metrics (likes, retweets) in a platform algorithm that rewards outrage.

However, its overall effectiveness is limited and counterproductive for broader persuasion or coalition-building. The relentless vulgarity and name-calling overshadow her occasional efforts to explain her work (e.g., linking reports on securing early voting), making her appear reactive and unprofessional rather than authoritative. This erodes credibility among neutral or moderate audiences, who may dismiss her as unstable or petty, and even alienates potential allies within her own movement (e.g., fellow conservatives she labels “losers” or “retards”). Quantitatively, the top four terms alone account for over 70% of her vulgar usage, indicating a pattern of escalation rather than de-escalation, which stifles nuanced debate.

Ultimately, she is not constructively engaging in genuine dialog. While snippets of her posts reference policy ideas or call for debates (e.g., “Set up the debate, coward”), these are almost always weaponized as traps for humiliation rather than invitations for mutual exchange. Her responses prioritize dismantling opponents through mockery and threats (e.g., “I’ll embarrass the Hell out of you”) over exploring ideas collaboratively. This is merely attacking people—defensive lashing out disguised as advocacy—that reinforces divisions rather than bridging them, turning potential discussions into one-sided feuds. In a space like X, where genuine dialog requires vulnerability and evidence over vitriol, her style isolates her further, perpetuating a cycle of conflict without advancing shared goals like election integrity.

Psychological Assessment

Background and Presenting Profile

Aubree presents as a self-described grassroots election integrity activist in Texas, affiliated with the Election Fairness Institute (EFI) and figures like Seth Keshel and Mark Finchem. Her bio ("Providing Constitutional Election Security… I was born for the Storm") evokes a warrior archetype, blending patriotism, anti-establishment fervor, and spiritual resilience (e.g., pirate flag emoji, "NO QUARTER"). At 803 followers (blue-verified), her reach is modest, suggesting a niche, insular audience. Posts spike during conflicts (e.g., September 2025 debates), with low engagement (often <50 views/likes), indicating echo-chamber dynamics rather than broad influence.

Her content is 70% reactive: defenses against perceived attacks, laced with vulgarity and moral absolutism. She shares family anecdotes (e.g., daughter's achievements) for relatability but rarely vulnerable self-reflection. Religious invocations (e.g., prayers for "JESUS Cover @charliekirk11") frame her struggles as a divine battle.

Observed Behavioral Patterns

From a psychological lens, her online persona reveals several interlocking patterns, analyzed through cognitive-behavioral, personality, and social psychology frameworks:

- **Hypervigilance and Persecutory Delusions (Paranoid Features)**:
  - Aubree exhibits a pervasive sense of being targeted: "5yrs of abuse from the Lindell circle," "Mark Cook harassing my mother and child," "stalker frien… targeted me." Over 30 posts detail "harassment,"

"doxxing," and "setups" (e.g., debates as "traps" with false premises). She accuses others of "spreading lies" or "gossip websites" while preemptively clipping evidence against them.
    - *Psychodynamic Insight*: This suggests a persecutory schema—interpreting neutral or critical interactions as existential threats. It aligns with paranoid personality traits (DSM-5 Cluster A), where trust is eroded, leading to preemptive strikes (e.g., "I'll embarrass the Hell out of you"). Her bio's "born for the Storm" may reflect a trauma-informed identity, possibly rooted in real experiences (e.g., family conflicts mentioned), fostering a "siege mentality."

- **Impulsive Aggression and Emotional Dysregulation**:
    - Vulgarity dominates: 20+ "loser," 19+ "dumbass," 15+ "coward/pussy." Attacks escalate rapidly (e.g., from policy disagreement to "pervert" or "retard"). She demands debates (13+ times: "Set up the debate, coward") but reframes losses as "baiting" or "surrender" (10+ victory claims).
    - *Behavioral Insight*: This mirrors intermittent explosive disorder traits or borderline personality organization (BPDO; Kernberg), with intense, unstable relationships (idealizing Keshel/Presler, devaluing Cook/Lindell as "experts" in quotes). Her "victim narrative" (e.g., "harassed for years") serves as emotional armor, but it perpetuates cycles: attacks provoke retaliation, reinforcing paranoia.

- **Grandiosity and Narcissistic Self-Promotion**:
  - Frequent name-dropping (15+ times: “Seth Keshel approved,” “work with Finchem”) and spamming links (20+ to Substack/EFI) inflate credibility amid feuds. She positions her work as “the ONLY way” to secure elections, dismissing critics as “low-information bandwagon jumping retard[s].”
  - *Personality Insight*: Vulnerable narcissism (vs. grandiose) fits: A fragile self-esteem masked by bravado, sensitive to slights (e.g., “just a bartender” mockery triggers rage). Religious posturing (“God please let Lindell call me… I can redeem him”) adds messianic elements, common in narcissistic vulnerability where activism becomes a stage for validation.

- **Moral Absolutism and Splitting**:
  - Binary thinking: Allies are “warriors” (e.g., Presler saves America); foes are “evil” or “not any better than the left.” Calls for violence (e.g., “hemp rope,” “skin him”) blend ideological zeal with displaced anger.
  - *Cognitive Insight*: Black-and-white splitting (BPDO again) simplifies a chaotic world but isolates her—infighting (50% of posts) fragments the movement she claims to serve.

- **Resilience Amid Isolation**:
  - Strengths shine in persistence: Producing reports despite “abuse,” sharing family joys (e.g.,

daughter’s algebra). Low engagement (modest followers) hints at social isolation, yet she persists, suggesting intrinsic motivation.

Potential Psychological Formulations

Without direct assessment, these are speculative hypotheses, informed by Millon’s personality theory and attachment models:

- **Primary Cluster**: **Narcissistic-Paranoid Presentation** (Axis II equivalent). Core: Inflated self-view clashing with vulnerability, leading to rage at perceived slights. Motivated by unmet needs for admiration/recognition in activism.
- **Comorbid Features**: **Borderline Traits** (emotional lability, unstable alliances) and **Paranoid Ideation** (ideas of reference, e.g., “they steal my work”). Possible trauma history (family fights, “hit” mentions) fueling insecure attachment (fearful-avoidant: craves connection but anticipates betrayal).
- **Situational Factors**: X’s algorithm rewards outrage, amplifying her style. Grassroots activism’s stress (infighting, low impact) may exacerbate rumination.
- **Differential**: Rule out bipolar (no clear mania) or PTSD (no flashbacks, but hypervigilance fits). Substance use unmentioned.

Strengths and Adaptive Qualities

- **Passion and Agency**: Her drive for election reform shows conscientiousness and agency—rare in disengaged spaces.
- **Empathy Bursts**: Moments of warmth (e.g., praising low-

propensity voters, family pride) suggest relational capacity.
- **Resilience**: Enduring “5yrs of abuse” without quitting indicates fortitude, potentially from secure early attachments.

Risks and Vulnerabilities

- **Interpersonal**: Cycles of conflict risk burnout, legal issues (e.g., threats), or real-world escalation (e.g., her harassment fears manifesting).
- **Emotional**: Unresolved anger may lead to depression if “wins” (debates) falter.
- **Professional**: Self-promotion alienates collaborators, stunting impact.

Recommendations

If Aubree sought therapy (hypothetically):

1. **Therapeutic Modality**: Dialectical Behavior Therapy (DBT) for emotion regulation and interpersonal skills; Schema Therapy for core beliefs like “I’m under siege.”
2. **Self-Help**: Journaling to track triggers (e.g., criticism → rage); mindfulness apps for hypervigilance. Engage offline support (e.g., EFI mentors) to validate without X’s toxicity.
3. **Lifestyle**: Channel passion into low-conflict outlets (e.g., writing over debates). Seek peer supervision in activism to process feuds.
4. **Prognosis**: Guarded-positive—with insight, her resilience could foster growth; without, patterns may rigidify into isolation.

Wed, 16 Jul 2025 17:18:49 GMT	Any donations would be greatly appreciated, as we (my daughter and I) are taking an opportunity to finally move out of our efficiency apartment and into a small house with a small yard! □□□□ We were praying for it and we need more space after 3+years in a tiny space! There I should have more room to record while my daughter has her own space. Thank you all for your patience and support as I’ve worked to afford more leg room (and headspace) while still reporting out to yall what I can! There’s so much more happening right now than I can say, but based not only on what I’ve seen and been part of, but also on what trusted sources relay… 2020 is not over with yet. Some of the details we will all learn together but I’m 100% sure we will be securing US elections by bringing the People up to speed on the facts. * I no longer have Zelle * PayPal: @tbtx7hs Venmo: @tb-tx Cashapp: $takingbacktx Thank you all for your support! □□□ All donations of all sizes appreciated, please check out https://tbtr.us/ for our restructured entity and new updates.	https://x.com/7HighSeas/status/1945533593356571106

Dr. Jan Halper-Hayes
@Biz_Shrink

@Biz_Shrink actually feels incredibly disrespected by you, @7HighSeas.

You spoke over everyone. You showed no respect to hear anyone by constantly interrupting and talking over them.

I started to explain something to you. Got a few words out before you cut me off.

At the beginning you started calling Mark a liar. Despite asking you to keep the negativity out of it, you could not control yourself.

But what was blatantly clear was you had no intention of having a productive conversation.

If anyone attended the debate under false pretenses, it was you who deceived us.

Toward the end, you left all decorum behind lashing out at Mark, revealing your true motivation as to why you really agreed to take part.

What I had wanted to explain to you is a simple fact that ensures people listen to you.

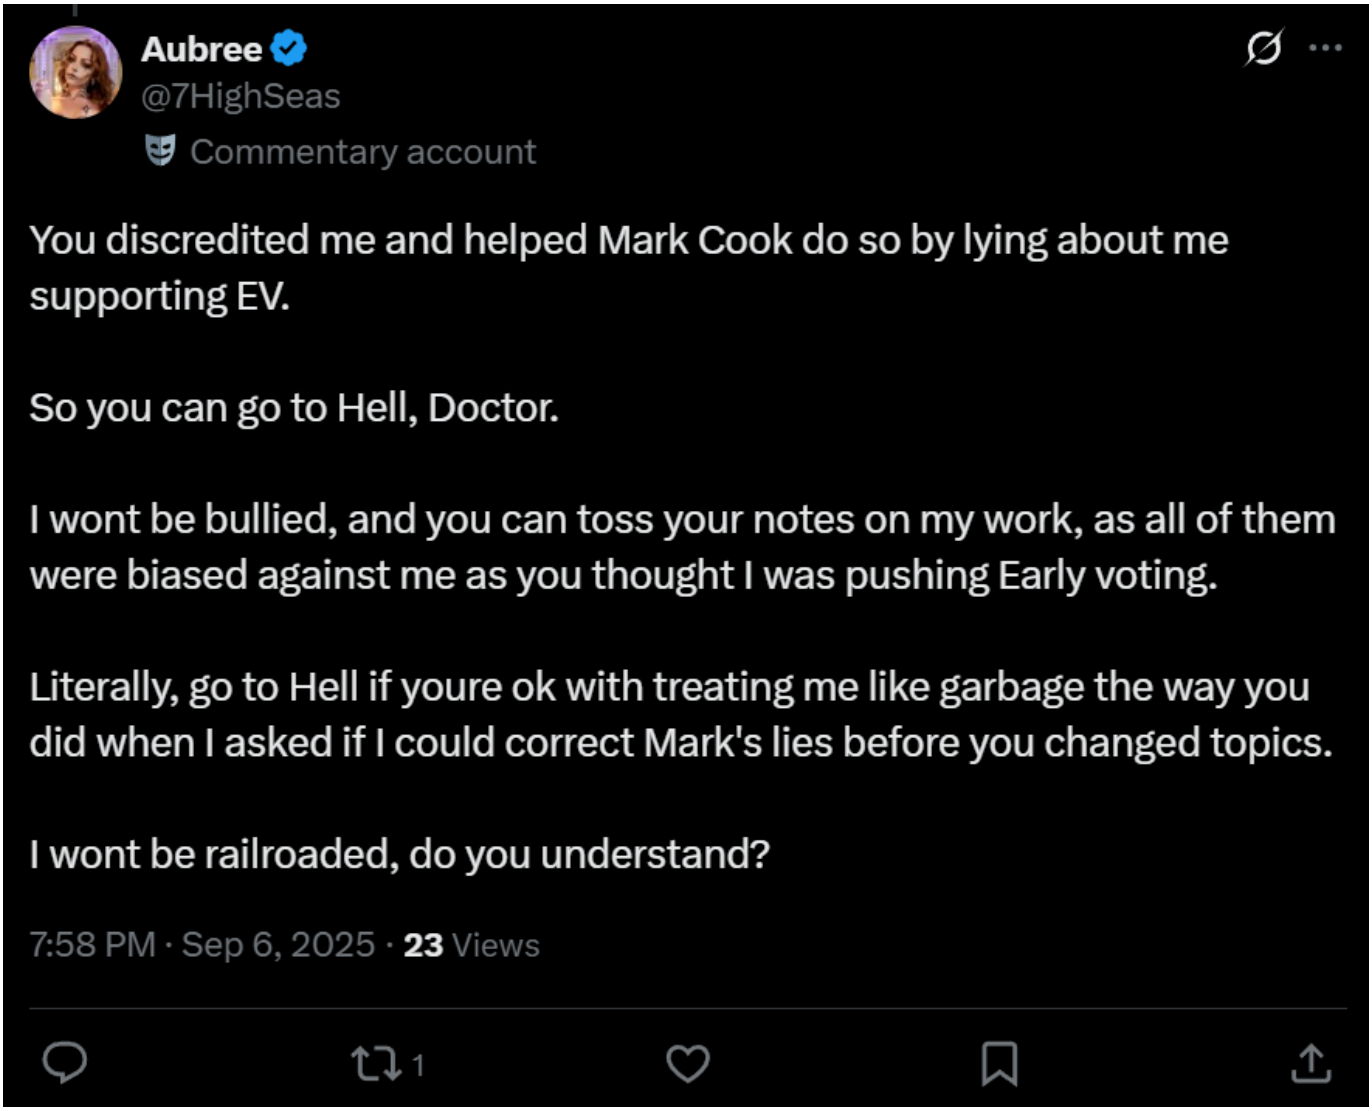

Your incessant need to punctuate your points with criticism and name calling means that anything you said prior is not remembered.

In reality, you negated and discredited yourself instead of your intended target.

That is a pity. I spent a couple of hours reading read your work. I showed you the notes I took.

Based on how you conducted yourself you demeaned your very substantial work.

Her Attacks on Mark Regarding Tina Peters

Date/Time	Content	URL
Tue, 02 Sep 2025 14:22:58 GMT	Oh the analysis that got nothing done but get Tina locked up? While he was on stage and you were chasing celebrities, I was doing real work like this: https://www.youtube.com/watch?si=HSs1mc0Uo1cuuJ6F&v=9a6qjgjiVQg&feature=youtu.be And i really dont care who you you think is cooler, I will crush you in the debate. Brace yourself, little man.	https://x.com/7HighSeas/status/1962883958468694247
Thu, 10 Jul 2025 04:35:24 GMT	You're the one who exploited Tina. I made sure our DCRP knew what you and Sherrona did and have been doing to get Tina locked up and funnel donations from her. I think you should quit before you destroy yourself, Mark.	https://x.com/7HighSeas/status/1963167145292021780
Mon, 07 Jul 2025 15:01:15 GMT	Nobody you work with, right, I guess you've successfully pivoted there despite being part of Lindells presentation, let's talk about how you handled Tina Peters information and got her locked up. Shall we?	https://x.com/7HighSeas/status/1942237481157722450

Date/Time	Content	URL
Fri, 11 Jul 2025 15:40:56 GMT	Everyone should know that Mark Cook plays fast and loose with the truth, releases sensitive information provided to him on investigations so he looks like he’s involved (he’s not), and likely is why Tina Peters got locked up. Thank Mark Cook, Sherrona Bishop and Dr. Frank for Tina sitting in prison today. And watch how Mark handles the information I’ve provided to him. He will exploit it for a cheap laugh. Never let him around your investigations or candidates	https://x.com/7HighSeas/status/1943697020419465587

Comment on Intent to Trigger

@7HighSeas does this purposely to trigger Mark. Her overall pattern of behavior, as analyzed in previous assessments, is highly escalatory and provocative: she frequently uses ad hominem attacks, repetitive accusations (e.g., linking him to the “Lindell circle” despite his protective role with Tina), and inflammatory claims to provoke emotional responses. This aligns with her aggressive tactics, such as demanding debates only to claim victory or “surrender,” and turning personal feuds into public spectacles for engagement. By falsely implicating Mark in Tina’s imprisonment—a sensitive topic given his advocacy for #FreeTinaPeters—she exploits a known vulnerability to elicit defensiveness, prolong the conflict, and rally her audience against him. This seems deliberate, as it fits her narcissistic-paranoid presentation, where triggering others reinforces her “victim-warrior” narrative and diverts from substantive critiques of her own work.

Attacks on real patriot Lori, founder of Tally Texas

Date/Time	Content	URL
Thu, 10 Sep 2025 18:09:09 GMT	So basically, that was a lie my mother used to try and take my daughter. Didn’t work. But like I said, you cant stay on topic and have been spreading hate and lies about me for years with Lori Gallagher and the stalker. Thanks for proving my point! There is only one incident in which I defended myself, and my entire family and friends know the truth. Keep embarrassing yourself tho! I accept your surrender on the topic of securing early voting	https://x.com/7HighSeas/status/1965839978950173014
Sun, 07 Sep 2025 11:19:44 GMT	Stop threatening to affect me financially, I know you and Lori have done it before but it won’t work again. Leave me alone, loser. Did you ever explain how my proposal wouldn’t secure early voting? NOPE. You showed us your gossip website and called me an infiltrator tho!	https://x.com/7HighSeas/status/1964649782619869396
Tue, 02 Sep 2025 04:11:42 GMT	Ill embarrass you too if you want to come for me when Mark depends on my work to even follow Texas election security updates. Lord knows he isn’t depending on Lori who uses AI to come up with reports and headlines. Lol	https://x.com/7HighSeas/status/1962730124807160128
Wed, 06 Aug 2025 15:26:06 GMT	Here’s another couple showing how she and Dr. Frank chose to label my work “spam” and thats why Lori jumped on that bandwagon.	https://x.com/7HighSeas/status/1953115373747806644

Date/Time	Content	URL
Tue, 05 Aug 2025 18:17:23 GMT	Mind you, this was after about 6 months of harassment from her directly and from her ghost numbers, ghost accounts and after she had cost me several key positions to advise the Lindell team on election security. Thanks Lori on a Farm! I had no idea how deeply demented Ally is at this point. She would not leave me alone, kept banning me from all important chats on Telegram (we couldn't post this work on any other platform at the time – we tried, got permabanned by leftist social media giants) and spread horrible rumors about me with Lori Gallagher's help. If you want to know why Lindell wasn't more successful in helping secure America's elections, ask the dream team in Texas who blocked real work from reaching Lindell and Michelle for consideration. I tried to go thru the official channels, as everyone knows Mike himself is perpetually busy and difficult to pin down outside of his schedule. Despite that, he gave me his number and I've sent several reports to him in the hopes he will consider taking my approach and helping me duplicate my findings while redeeming his good name. Unfortunately, his advisors are close with ppl who are themselves close with Lori, who helped Ally spread horrible rumors about me in 2022, had me removed from several working groups so she could seem more relevant, and made sure that Mike was only surrounded by YES men/women. I won't address Ally directly, because she isn't significant enough anymore to the movement. But Lori should feel some amount of SHAME for what she did to me, to Seth (Lori helped Ally spread rumors about Ally and Seth being involved with eachother, and laughed at both Seth and I when we confronted her, accused us both of being in a "love triangle" which was beyond infuriating, insulting, and inaccurate. Still, she has gained a following partially by diminishing the work of others like myself and Jovan to people who look to her. Ppl look to Lori bc she once touted herself as being the most well-connected Texas person in election security. Shameless self-promotion won't secure elections. My reports will. Im copyrighting them now, bowtie. This isn't academia, where you can pretend that a concept you heard from someone who mapped it all out just *came* to you one day while making chicken noodle soup. Fuck you. Im still going, I still have work in securing elections, rumor has it that Lori might sue someone to be able to claim their work as her own.	https://x.com/7HighSeas/status/1952796088630640874
Mon, 04 Aug 2025 16:17:55 GMT	This screen shot is from '22 and the harassment had been going on for a LONG time by now. Lori Gallagher and Ally Rose teamed up against me because Ally was paying @Lorionafarm to destroy me in my own state. Lori denies it. But I have all the receipts where Ally admits it. These ppl are why we still haven't secured elections. They lie, attack, steal, harass, bully, and then lie some more. Though Ally would love to be compared to Dr. Frank and Dennis Montgomery, shes nowhere near that involved with the big picture, not like I am. Ally and Lori are two small ppl who want to be big, so they try to take down anyone who makes them look like the washed-up, diminished, half-assed, lazy and stupid hags they are and have always been. Lori was a mean girl in HS and Ally was totally ignored by everyone. You can read them like a book.	https://x.com/7HighSeas/status/1952403636492906566
Fri, 25 Jul 2025 13:36:48 GMT	This is how the Lindell circle of "experts" gang stalks people who do better work than them. Mark Cook, the Raccoon, Dr. Frank, Ally, Lori. They think it keeps them relevant, and in a way they are right. They are the example of what NOT to do.	https://x.com/7HighSeas/status/1948739209553912111
Thu, 24 Jul 2025 15:07:04 GMT	She loves to tell ppl not to read my work bc she and Dr. Frank never wanted Lindell to hire me and use my strategy.	https://x.com/7HighSeas/status/1948399542019191136
Sat, 12 Jul 2025 16:38:02 GMT	Mark, you're crashing out. Accept that you and Lori weren't successful, and you and I haven't gotten past that last event you did here with Beth.	https://x.com/7HighSeas/status/1944073777903808636
Sat, 12 Jul 2025 16:25:10 GMT	Ally Rose wants to be me so bad that she's obsessively trying to copy everything she can from me, like the others in her friends group that attack me, namely Lori Gallagher and Mark Cook, Dr. Frank and the Raccoon. They even steal my most quoted Bible verses and FF quotes as if they just hit them how profound they are. No, they've been watching me and lifting what they can for years. Just look at her page, and recall that Ally has multiple criminal charges and investigations, along with restraining orders to keep men and women she harasses safe, namely myself and Captain Seth Keshel, oh and Dominic Box as well.	https://x.com/7HighSeas/status/1944070539628212508

Posts Where She Claims Someone Else is Lying

These are posts from @7HighSeas where she accuses others of lying or spreading lies.

Wed, 10 Sep 2025 18:28:16 GMT	I have not done anything to them. Stop spreading lies bc you lost a debate. My mother tried to take my child, twice. That was one of her tactics, lying when she got caught doing things she shouldnt be doing. She’s doing much better now since I was able to move away with my daughter and we have had time and distance to heal. Want to keep gossiping about my family drama? Or are you ready to talk about how to secure early voting?	https://x.com/7HighSeas/status/1965844789745594594
Wed, 10 Sep 2025 18:09:09 GMT	So basically, that was a lie my mother used to try and take my daughter. Didn’t work. But like I said, you cant stay on topic and have been spreading hate and lies about me for years with Lori Gallagher and the stalker. Thanks for proving my point! There is only one incident in which I defended myself, and my entire family and friends know the truth. Keep embarrassing yourself tho! I accept your surrender on the topic of securing early voting	https://x.com/7HighSeas/status/1965839978950173014
Sun, 07 Sep 2025 12:45:55 GMT	Ahh yes, the gossip rag website yall actually wanted to debate. Next time, just tell me you wanted to debate YOUR work, do NOT lie about allowing me to explain mine.	https://x.com/7HighSeas/status/1964671473517470082

Sun, 07 Sep 2025 10:26:02 GMT	Here is the moment you allowed @PatriotMarkCook to go WAY off topic, call me an infiltrator, lie about my work, changed the premise of the debate last minute, and you told me that I shouldnt be so “bitchy” lol You also let Mark slander Scott Presler, and overlooked all of Mark’s hypocrisy and abuse. You owe me an apology. Not the other way around. Despite that, I DMd you an apology with more context, saying I’d love to see your notes on my work. But its clear you are more interested in helping Mark spread hate for me rather than staying on topic as to whether early voting can even be secured at all. Don’t ever call me another name while assisting someone abuse me with lies. https://t.co/b8PlI3XB8k	https://x.com/7HighSeas/status/1964636268165222609

Sun, 07 Sep 2025 03:42:12 GMT	So everyone can see that I stayed on topic and answered you with detail. Mark did not stay on topic and did not give detail, but lied about me and my work. You wouldn't allow me to correct his lies, you lectured me, I waited patiently, you lectured me some more. You never even asked Mark why he was bringing on off topic issues. You watched him mock me for being "just a bartender" and lectured me for calling him arrogant, said my mic should be cut. You watched him bring in his gossip about Scott and me and you lectured ME despite me answering you in detail. You watched him say low-propensity voters shouldn't be engaged or registered to vote, that it hurts the country, and you lectured ME about being rude You watched him repeatedly say most people cant understand his work, and you saw that he refused to answer in detail, yet you never pushed him for more than just his speculation and cryptic hints at a clandestine operation he knows of. I DMd you an apology and more context, but you dont seem interested in anything other than railroading me with Mark and killing my work with him. He successfully manipulated you against me by convincing you to address me as tho I was pushing Early votes and mail ins, and you were quick to snap at me, letting Mark's insults slide.	https://x.com/7HighSeas/status/1964534642091946172
Sun, 07 Sep 2025 03:06:28 GMT	Mark couldn't stay on topic. I did. She lectured me. I asked to correct Mark's lies. She lectured me. I said the debate was a false premise, she lectured me. She is clearly a fan of Mark and believed him when he lied about my report and intent. Its sad that this movement is so cliquey, but my work stands strong and these people can just stay mad that I repost Scott Presler. I really dont care.	https://x.com/7HighSeas/status/1964525649839981032

Sun, 07 Sep 2025 03:01:58 GMT	I respectfully asked if I could correct Mark’s lies about me, and they are lies, and you lectured me not to accuse him of lying. But he was. And he knew he was. Mark didn’t stay on topic, yet you continued to lecture me bc Mark has a bigger following and you believed the lie he is pushing about me. Yes, I will defend myself and my work and I will NEVER be railroaded by you and Mark or any of your goons again. Stay in your lane, I’ll stay in mine, yall set up a completely dishonest debate and you were extremely rude to ME	https://x.com/7HighSeas/status/1964524517025280132
Sun, 07 Sep 2025 02:20:25 GMT	They’ll definitely see you fail to stay on topic, bash me and Scott Pressler with lies, share your gossip website, run away when asked for details of your work, bash blue-collar bartenders as morons, said low-propensity voters shouldnt be engaged to vote or be registered, and much more! Lol asshole	https://x.com/7HighSeas/status/1964514061745308156
Sun, 07 Sep 2025 02:18:07 GMT	Everyone can see it, I have been sharing it. You failed to stay on topic, bashed me and Scott Pressler with lies and gossip, and ran away when asked for details of your work. Lol	https://x.com/7HighSeas/status/1964513480234717469
Sun, 07 Sep 2025 02:16:38 GMT	You changed it to make me look like I was pushing EV you lying little sniveling dirt bag. The post you are triggered over was about my proposal to secure it. You lied about me, as usual, and everyone saw that.	https://x.com/7HighSeas/status/1964513108506137073

Sat, 06 Sep 2025 18:14:52 GMT	No, you were embarassed, you guys lied to @Biz_Shrink and gave her NO time or context about this debate, you misled her and @PaidTriotKO to address me as some fool pushing EV. Now everyone knows the truth about me and the truth about you and your lies, abuse, harassment, etc.	https://x.com/7HighSeas/status/1964391865714663548

Sat, 06 Sep 2025 18:10:26 GMT	I am not lying at all LOL everyone can see what you did, including changing the premise of the debate the DAY OF to make it look like I was pushing EV and thats why you were trashing me, you dishonest litte rat man.	https://x.com/7HighSeas/status/1964390752961671588
Sat, 06 Sep 2025 18:05:48 GMT	No, it was supposed to be about whether Early Voting can be secured. You and your goon @PaidTriotKO changed it the day of to make it look like I was pushing Early Voting, you lying little scumbag LOL	https://x.com/7HighSeas/status/1964389585766797582
Sat, 06 Sep 2025 18:04:53 GMT	You and your goon @PaidTriotKO set up the debate on a lie, and now everyone knows what you’re willing to do to stay relevant to your low-information X followers.	https://x.com/7HighSeas/status/1964389356434608562
Sat, 06 Sep 2025 18:02:31 GMT	Please watch the debate Mark set up based on a totally false premise to make himself look like a hero, watch the moderators not allow me time to correct Mark’s lies (he told them already I was pushing EV over ED) and watch how Mark couldn’t stay on topic, had no answers, didnt actually disagree with me, bailed once asked to stay on topic. Jack and I had a great talk once the trolls all left.	https://x.com/7HighSeas/status/1964388760222642344

Sat, 06 Sep 2025 17:50:20 GMT	Also, I am not attacking him in any way. I dont follow him, I dont comment on his work anymore at all. He does this to ME incessantly. Im defending my work, and he's once again lying to make himself look like the victim once he lost the debate. He's right, it wasn't a debate. He didnt read my report and in the end he didn't even disagree with me. He just wanted to LASH me for supporting Scott, a man Mark has targeted for harassment and made a whole website about. PATHETIC LOL	https://x.com/7HighSeas/status/1964385692383113310
Sat, 06 Sep 2025 17:46:05 GMT	Lol everyone can see what happened. You lied, set up the whole debate on a false premise, and had nothing but speculation. I have real strategy and you can't stand it bc I'm "just a bartender" lol you arrogant little prick.	https://x.com/7HighSeas/status/1964384623003124045
Sat, 06 Sep 2025 17:44:53 GMT	Right lol AS hes lying about me, my work, my intent, and his own intent	https://x.com/7HighSeas/status/1964384320958738465
Sat, 06 Sep 2025 17:27:10 GMT	Well that's clearly retarded logic. But what else should anyone expect from a liar and abuser like you. Call ppl names and then cry victim when you get it back, punk.	https://x.com/7HighSeas/status/1964379864254812626

Sat, 06 Sep 2025 17:26:37 GMT	After being harassed and bullied by @PatriotMarkCook for days about my proposal for how we might secure early voting, I agreed to do a debate with him over whether Early Voting could be secured. It devolved into Mark lying about my position on early voting (ask him why, he never really said) shifted to his gossip rag website about @ScottPresler, pulled up OLD tweets from me responding to his incessant harassment, and ran away when he couldn’t list even one of the items he was suggesting I am missing. He couldn’t even list them. What he did describe was purely theoretical. I have theories too, doesnt mean they are immediately actionable, Mark. Try to focus on the bad actors in our elections and if you cant stop lying about what is contained in my work, you’ll only discredit yourself. If you dont know who the bad actors are, just ask and I can give you a place to start looking.	https://x.com/7HighSeas/status/1964379726677487933
Sat, 06 Sep 2025 04:54:06 GMT	So today, Mark and I were supposed to be debating whether EV could be secured or not… but @PatriotMarkCook lied about my position (as usual) to secure some relevance, and the debate was framed as though I was pushing EV and Mark was pushing ED. Very dishonest premise, and I will NEVER fall for that again. He also lies about other ppl in the movement bc he has no idea who the real culprits in election fraud are.	https://x.com/7HighSeas/status/1964190346444697766

Date/Time	Content	URL
Fri, 05 Sep 2025 22:42:01 GMT	This was the most dishonest premise for a debate, but thats what Mark Cook does. He lies about ppl, to ppl, about work, just to keep himself relevant. He successfully convinced this panel including @Biz_Shrink that I was supporting early voting and mail-ins. That’s just another example of what Ive been dealing with from the dishonest and abusive @PatriotMarkCook for MONTHS now.	https://x.com/7HighSeas/status/1964096710155685902
Fri, 05 Sep 2025 22:33:42 GMT	I accept your surrender @PatriotMarkCook and nice try! You dishonestly set up the entire debate with me as EV voting vs ED voting, knowing full well that I am not pushing EV at all, but a way to secure it since we have it regardless. Your repeated lies were debunked, so you switched to showing unrelated mean tweets I made in response to your incessant commenting and aspersion casting on my posts about my work. How embarrassing. You lied to @Biz_Shrink and had her thinking she was moderating a debate between us, when you dont even disagree with me. You just lie about me until you get caught. You cant even name ONE item you suggest I’m missing. Oh, and Ive recorded your comments about me being “just a bartender” as well as “Scott shouldn’t register low-propensity voters” and also “most people dont understand this..,” You really think you’re above reproach. Think again, buddy and keep your goons away from me. 50+ comments calling me a shill, grifter, twit, needs mental help, etc does equal online harassment. You are a harasser as are your friends.	https://x.com/7HighSeas/status/1964094618469093736

Date/Time	Content	URL
Fri, 05 Sep 2025 19:18:44 GMT	Come and watch me and @PatriotMarkCook debate whether or not it’s possible to secure Early Voting or whether it’s SO impossible that we shouldn’t even try or discuss it. Should be satisfying. I’ve been done w Mark for a while now, let this satiate his appetite for lying about me, and even worse, my work.	https://x.com/7HighSeas/status/1964045550808158441
Thu, 04 Sep 2025 23:49:25 GMT	I havent blocked you, and you have no reason to call me evil. You are a brain dead follower who knows nothing about me or my work or contributions to the election security movement. You are the grifter trying to make a name off of mine, by lying about me. Keep it up and I will sue you and Brian for libel and slander.	https://x.com/7HighSeas/status/1963751285322141744
Thu, 04 Sep 2025 21:57:50 GMT	I know, you’re embarrassed. You thought I was as stupid and useless as you are. Lol no, you suck. Go to Hell and get off of my posts with your lies and trolling.	https://x.com/7HighSeas/status/1963723201298510051

Sat, 06 Sep 2025 17:54:58 GMT	I didn't set up the 'debate'. Why are you lying about that? It was very simple: early vs election day voting. That's what everyone other than you was discussing. It was even announced right at the beginning. How did you miss that? I recommend everyone watches themselves. You are destroying your reputation and all you are associated with and drag into your tirades right in front of us. People you know are contacting me because you're going off again. Do you realize the HARM you to do the last remaining people that will give you the time of day? Do you intend to run EVERYONE off entirely? Because you are well on your way to doing so. Tue, 02 Sep 2025 06:23:00 GMT	I was never on your topic lady. I haven’t questioned your work, said you were lying or anything. I don’t care. You have no information that I need. None.	https://x.com/gfreedomforall/status/1962763169140744210

Tue, 02 Sep 2025 04:31:55 GMT	Aubree, you have once again conjured things up in your head (or you are just lying to people). I’m not working with your ‘party’ in any way. I don’t work for Lindell, as I’ve told you time and time again. Memory issue? Or honesty issue? Your attempt to mislead people into reading your report is obvious. And that report doesn’t even mention early voting. Don’t you realize how disingenuous that is? Are you that hurting for people to read it that you’ve got to lie to them? If you want any advice in how to address the flaws in your report, just ask (nicely, and you’ve got to stop it with the lies and unhinged attacks – I don’t have time for that).	https://x.com/PatriotMarkCook/status/1962735214989619462

Mon, 01 Sep 2025 21:48:32 GMT	Sadly, even sharp minds can get caught off guard by the subtleties of election manipulation tactics, especially when it comes to early voting (and even mail-in tracking systems). The real danger lies in how these tools inadvertently feed data into sophisticated models that predict voter turnout and likely outcomes in real time, allowing bad actors to calculate exactly how many fraudulent ballots to inject and where, all while spreading them out over weeks to avoid detection. It's a clever con that's escaped notice for many, including some who are deeply involved in a shared metroplex and/or in voter outreach, and assume they've got it all figured out because they can't see past their nose. When the full picture clicks into place, though, some with levels of ignorance larger than their brains will lash out at the person pointing it out rather than acknowledge the oversight with a simple "Wow, thank you! I totally missed that one." But recognizing this threat vector is key to protecting the process: by overwhelming the system with in-person votes on Election Day itself, we disrupt that predictive loop, force any shenanigans into the open, and reclaim the integrity of our elections for everyone. And after that, anyone still pushing early voting isn't just stupid enough to not know this; they're either complicit or dangerously uninformed. And if someone refuses to admit the truth after being presented with it… well, that speaks volumes about their integrity and true intentions. For anyone that is having trouble following…allow JP to explain it for you: https://t.co/gYcL5DsJIM	https://x.com/PatriotMarkCook/status/1962633699050299619

Mon, 11 Aug 2025 13:37:28 GMT	Doesn't think much? I'm one of about 4 J6ers who spotted the trap your crew set up. I helped shut down @DocPeteChambers #tobb militia convoy. Shut @IvanRaiklin down during 2024 election cycle. You are not dealing with the usual band of idiots you can infiltrate and lie to.	https://x.com/CorrrespondentX/status/1954899970928095283
