The 2024 Election Win Illusion

We won only a Battle

We lost Strategic Positions Nationwide

We are being set up

These people aren’t stupid

This is not their first rodeo

Mark Cook

Cold Hard Reality

You can’t win a war if you don’t know you’re in one.

You can’t win a war if you don’t know the goals of your enemy.

You can’t win a war if you don’t know the tactics of your enemy.

You can’t win a war if you don’t know the tools of your enemy.

You can’t win a war if you have no strategy.

You can’t win a war if you use inferior weapons.

Donald J. Trump
@realDonaldTrump

I am going to lead a movement to get rid of ~~MAIL-IN BALLOTS~~, and also, while we're at it, Highly "Inaccurate," Very Expensive, and Seriously Controversial ~~VOTING MACHINES~~, which cost Ten Times more than accurate and sophisticated Watermark Paper, which is faster, and leaves NO DOUBT, at the end of the evening, as to who WON, and who LOST, the Election. We are now the only Country in the World that uses Mail-In Voting. All others gave it up because of the ~~MASSIVE VOTER FRAUD ENCOUNTERED.~~ WE WILL BEGIN THIS EFFORT, WHICH WILL BE STRONGLY OPPOSED BY THE DEMOCRATS BECAUSE THEY CHEAT AT LEVELS NEVER SEEN BEFORE, by signing an EXECUTIVE ORDER to help bring HONESTY to the 2026 Midterm Elections. Remember, the States are merely an "agent" for the Federal Government in counting and tabulating the votes. They must do what the Federal Government, as represented by the President of the United States, tells them, FOR THE GOOD OF OUR COUNTRY, to do. With their HORRIBLE Radical Left policies, like Open Borders, Men Playing in Women's Sports, Transgender and "WOKE" for everyone, and so much more, Democrats are virtually Unelectable without using this completely disproven Mail-In SCAM. ELECTIONS CAN NEVER BE HONEST WITH MAIL IN BALLOTS/VOTING, and everybody, IN PARTICULAR THE DEMOCRATS, KNOWS THIS. I, AND THE REPUBLICAN PARTY, WILL FIGHT LIKE HELL TO BRING HONESTY AND INTEGRITY BACK TO OUR ELECTIONS. THE MAIL-IN BALLOT HOAX, USING VOTING MACHINES THAT ARE A COMPLETE AND TOTAL DISASTER, MUST END, NOW!!! REMEMBER, WITHOUT FAIR AND HONEST ELECTIONS, AND STRONG AND POWERFUL BORDERS, YOU DON'T HAVE EVEN A SEMBLANCE OF A COUNTRY. THANK YOU FOR YOUR ATTENTION TO THIS MATTER!!! DONALD J. TRUMP, PRESIDENT OF THE UNITED STATES OF AMERICA

"Fair Elections are the only non-violent means of settling political discourse."

WE ARE COMING TO YOU!

Current Mission: Ensure that our elections accurately and verifiably represent the will of the people. Yes, even post 2024 Election! We MUST fix our entire Election System. HCRS Round 2 hits the road in May 2025 on another multi-year journey around the Country. Donations are needed and welcome to fuel this next trip. And if you are in Colorado until then, I am happy to present in person before May. And if you are outside of Colorado, I can still present remotely! Scroll down to see what events are lined up so far.

Goal: Personal visits to counties to educate and offer advice to help fortify the security, accuracy, and verifiability of each County's upcoming Election. Click here to see the entire solution we will be helping implement.

At Each County:

- Public Election Integrity Briefing to explain the Election Ecosystem, Vulnerabilities, and both Short and Long Term Mitigation
- Meetings with local Grass Roots, Election Officials, Commissioners, Sheriffs, and other Countywide and City officials to answer questions and provide suggestions on paths to reclaiming county control and securing their elections
- Recruiting Citizens committed to working the elections
- Bonus that you will find out in person

Take me to Most Recent Recording and Slide Deck

107 counties so far. Sign up now to get on the route!

Scope

At the heart of democratic governance lies the voting system, a mechanism designed to reflect the collective will of the people. For this system to truly serve its purpose, it must be **so simple and transparent** that **every citizen**, regardless of their background, education, or technological literacy, can not only participate but also **understand and verify every step** of the process. This simplicity and transparency are not just about ease of use; they are fundamental to **ensuring equal access** to the electoral process. If the mechanics of voting are shrouded in complexity or lack transparency, trust in the electoral outcome diminishes, eroding the foundation of our republic. At its essence, voting involves citizens marking their choices on paper, followed by a straightforward count of these marks. This process doesn't necessitate elaborate or costly technology; instead, it demands clarity, accessibility, and the ability for public oversight. For American citizens to genuinely reclaim their electoral process, immediate and comprehensive reforms are imperative. Here's what we must implement:

Mark Cook

Voter Registration

- Every 2 year
- In-person at the county
- Verified citizen and residency check at that time
- On a paper voter registration card
- Witnessed signature
- Stored by voting precinct
- A read-only standardized digital list of registered voters is provided by every county on their website to share with the citizens and all other counties
- Each county cross-references their list against all other counties. Paper poll books for each precinct are created from registration cards prior to every election

Absentee Ballots

- Limited to as-needed basis
- Proof must be provided and accepted

Election Past, Present, and Future

2016	They underestimated, couldn't manipulate enough.
2018-2020	They prepared for The **Steal**
2020	100% **Stolen** Election
2022	"Red Wave" psyop, then **steal**
2024	The Illusion was **Too Big to Sell**. Allow Presidential loss, steal down-ballot seats.
2024-2026	They are preparing to steal the 2026, neuter Trump/AF, take full election control, steal 2028 and beyond. All wins will be temporary. **Everything else is a distraction.**

"Fair Elections are the only non-violent means of settling political discourse."

WE ARE COMING TO YOU!

Current Mission: Ensure that our elections accurately and verifiably represent the will of the people. Yes, even post 2024 Election! We MUST fix our entire Election System. HCRS Round 2 hits the road in May 2025 on another multi-year journey around the Country. Donations are needed and welcome to fuel this next trip. And if you are in Colorado until then, I am happy to present in person before May. And if you are outside of Colorado, I can still present remotely! Scroll down to see what events are lined up so far.

Goal: Personal visits to counties to educate and offer advice to help fortify the security, accuracy, and verifiability of each County's upcoming Election. Click here to see the entire solution we will be helping implement.

At Each County:

- Public Election Integrity Briefing to explain the Election Ecosystem, Vulnerabilities, and both Short and Long Term Mitigation
- Meetings with local Grass Roots, Election Officials, Commissioners, Sheriffs, and other Countywide and City officials to answer questions and provide suggestions on paths to reclaiming county control and securing their elections
- Recruiting Citizens committed to working the elections
- Bonus that you will find out in person
