We Are NOT the Same

An Honest Election

Group A - Citizens

“Elections are a tool to measure the will of the people, for them to determine who they want to represent them, and what laws they want to follow”

Citizens cast their votes

Collect the ballots

Tabulate the ballots

Obtain the results

Their Old School Election Manipulation (1st Order)

- Example 1 -

Candidates Lies about Opponent
Citizens cast their votes
Collect the ballots
Tabulate the ballots
Obtain the results

Group B - **Criminals**

“Elections are a tool to obtain and maintain power, launder money, and control the laws, in a covert manner without the citizens realizing”

Their Low-Tech Election Manipulation (2nd Order)

- Example 2 -

Citizens cast their votes

Collect the ballots

Tabulate the ballots

Obtain the results

Group B - **Criminals**

“Elections are a tool to obtain and maintain power, launder money, and control the laws, in a covert manner without the citizens realizing”

Their Low-Tech Election Manipulation (2nd Order)

- Example 2 -

Citizens cast their votes
Collect the ballots

Tabulate the ballots
Obtain the results

Group B - **Criminals**

“Elections are a tool to obtain and maintain power, launder money, and control the laws, in a covert manner without the citizens realizing”

Their Low-Tech Election Manipulation (2nd Order)

- Example 2 -

Citizens cast their votes

Collect the ballots

Count totals to determine real result

Tabulate the ballots

Obtain the results

Group B - **Criminals**

“Elections are a tool to obtain and maintain power, launder money, and control the laws, in a covert manner without the citizens realizing”

Their Low-Tech Election Manipulation (2nd Order)

- Example 2 -

Citizens cast their votes

Collect the ballots

Count totals to determine real result

Calculate votes needed to shift results

Tabulate the ballots

Obtain the results

Group B - **Criminals**

“Elections are a tool to obtain and maintain power, launder money, and control the laws, in a covert manner without the citizens realizing”

Their Low-Tech Election Manipulation (2nd Order)

- Example 2 -

Citizens cast their votes

Collect the ballots

Count totals to determine real result

Calculate votes needed to shift results

Fill in under-votes, add/remove ballots

Tabulate the ballots

Obtain the results

Group B - **Criminals**

“Elections are a tool to obtain and maintain power, launder money, and control the laws, in a covert manner without the citizens realizing”

Their Low-Tech Election Manipulation (2nd Order)

- Example 2 -

Media-condition people to accept result

Citizens cast their votes

Collect the ballots

Count totals to determine real result

Calculate votes needed to shift results

Fill under-votes, Add / Remove ballots

Tabulate the ballots

Obtain the results

Group B - **Criminals**

“Elections are a tool to obtain and maintain power, launder money, and control the laws, in a covert manner without the citizens realizing”

Their High-Tech Election Manipulation (3rd Order)

- Step 1: Staging -

MSM/FBI/DHS/CIA/CISA Propaganda
“Election Officials are Under Attack”

LAT to create false sense of accuracy

Subtly Raise Margin of Human Error

Conduct Manipulated Election

Design RLA to Minimize Error Detection

Condition the gullible to trust RLA

Explain mistakes as isolated human error

Claim mistakes are under margin of loss

“Expect Delays in Results”

Rush to CERTIFY

Threaten anyone that threatens certification

Attack any that question the results

“No Widespread Election Fraud”

Group B - **Criminals**

“Elections are a tool to obtain and maintain power, launder money, and control the laws, in a covert manner without the citizens realizing”

Their High-Tech Election Manipulation (3rd Order)

- Step 2: Create Headroom -

Remove Citizenship question on Census

Inflate Census / Harvest Addresses

MSM/Social/Officials Conditioning

“Record Voter Registration”

Take Reg Voter control from Counties

Outsource to NGO

Voter Registration Drives (NGO/SOS...)

Motor-Voter (DMV)

Register under-age children to vote

Create Phantom Voters (new or tweak)

Inhibit pruning of ineligible records

Group B - **Criminals**

“Elections are a tool to obtain and maintain power, launder money, and control the laws, in a covert manner without the citizens realizing”

Their High-Tech Election Manipulation (3rd Order)

- Step 3: Feedback Loop -

Citizens cast their votes

Group B - **Criminals**

“Elections are a tool to obtain and maintain power, launder money, and control the laws, in a covert manner without the citizens realizing”

Their High-Tech Election Manipulation (3rd Order)

- Step 3: Feedback Loop -

Citizens cast their votes
Monitor who votes

Group B - **Criminals**

“Elections are a tool to obtain and maintain power, launder money, and control the laws, in a covert manner without the citizens realizing”

Their High-Tech Election Manipulation (3rd Order)

- Step 3: Feedback Loop -

Citizens cast their votes

Monitor who votes

Feed result model

Calculate votes needed to shift results

Feed phantom ballots to USPS/Dropbox

Group B - **Criminals**

“Elections are a tool to obtain and maintain power, launder money, and control the laws, in a covert manner without the citizens realizing”

Their High-Tech Election Manipulation (3rd Order)

- Step 3: Feedback Loop -

Media Psychological Conditioning

“Record Voter Participation”

Citizens cast their votes

Monitor who votes

Feed result model

Calculate votes needed to shift results

Feed phantom ballots to USPS/Dropbox

Group B - **Criminals**

“Elections are a tool to obtain and maintain power, launder money, and control the laws, in a covert manner without the citizens realizing”

Their High-Tech Election Manipulation (3rd Order)

- Step 3: Feedback Loop -

Media Psychological Conditioning

“Record Voter Participation”

Citizens cast their votes

Monitor who votes

Feed result model

Calculate votes needed to shift results

Feed phantom ballots to USPS/Dropbox

Collect the ballots

Tabulate the ballots

Obtain the results

Group B - **Criminals**

“Elections are a tool to obtain and maintain power, launder money, and control the laws, in a covert manner without the citizens realizing”

Their High-Tech Election Manipulation (3rd Order)

- Step 4: Backup Override -

Media Psychological Conditioning
“Record Voter Participation”

Citizens cast their votes

Monitor who votes

Feed result model

Calculate votes needed to shift results

Feed phantom ballots to USPS/Dropbox

Collect the ballots

Tabulate the ballots

Group B - **Criminals**

“Elections are a tool to obtain and maintain power, launder money, and control the laws, in a covert manner without the citizens realizing”

Their High-Tech Election Manipulation (3rd Order)

- Step 4: Backup Override -

Media Psychological Conditioning
“Record Voter Participation”

Citizens cast their votes

Monitor who votes

Feed result model

Calculate votes needed to shift results

Feed phantom ballots to USPS/Dropbox

Collect the ballots

Tabulate the ballots

OVERRIDE

Group B - **Criminals**

“Elections are a tool to obtain and maintain power, launder money, and control the laws, in a covert manner without the citizens realizing”

Their High-Tech Election Manipulation (3rd Order)

- Step 4: Backup Override -

Media Psychological Conditioning
“Record Voter Participation”

Citizens cast their votes

Monitor who votes

Feed result model

Calculate votes needed to shift results

Feed phantom ballots to USPS/Dropbox

Collect the ballots

Tabulate the ballots

Publish **target** results (call ‘unofficial’)

Group B - **Criminals**

“Elections are a tool to obtain and maintain power, launder money, and control the laws, in a covert manner without the citizens realizing”

Their High-Tech Election Manipulation (3rd Order)

- Step 4: Backup Override -

Media Psychological Conditioning
“Record Voter Participation”

Citizens cast their votes

Monitor who votes

Feed result model

Calculate votes needed to shift results

Feed phantom ballots to USPS/Dropbox

Collect the ballots

Tabulate the ballots

Publish **target** results (call ‘unofficial’)

Shuffle voter reg, back-fill results/paper

Group B - **Criminals**

“Elections are a tool to obtain and maintain power, launder money, and control the laws, in a covert manner without the citizens realizing”

Artificial Intelligence

Colorado Rough Election Timeline

1993-1997: **Wayne Williams** - Colorado House of Reps

1997: **Wayne Williams, John Runbeck** - founded Runbeck Election Services

2008: **Mail-In Ballots Transition** - Claimed to increase voter participation and reducing costs associated with election day operations.

2013: **All Mail-In Voting** - By this year, the entire state had moved to an all-mail voting system for the first time.

2015: **Dominion Voting Statewide** - Newly elected Colorado SOS Wayne Williams signed a contract with Dominion Voting Systems to be implemented in every County.

2016: **Automatic Voter Registration (AVR)** - Colorado became the first state to implement AVR. This system automatically registers individuals to vote when they apply for or renew their driver's license, unless they opt out. Claimed to increase voter registration rates.

2017: **Risk-Limiting Audits (RLA)** - Colorado passed legislation making RLA's mandatory for all elections. Starting in 2017, these audits claimed to ensure that the electronic tally of votes is an accurate reflection of voter intent by comparing only a sample of paper ballots to electronic results

2018: **No Voter ID** - Colorado voters rejected a ballot initiative that would have required voters to show photo identification before receiving a ballot, maintaining its system where voters could use affidavit ballots.

2020: **Election Security** - In response to concerns over election security, particularly following the 2016 election, Colorado implemented various measures to 'secure' its elections, including cybersecurity 'enhancements' and additional transparency measures around voting processes.

2021: **Election Security Enhancements** - The Colorado Election Security Act was passed. It included measures to *protect election officials*, increase penalties for election 'crimes', and further 'secure' voting systems.

2021: **Wayne Williams Appointed as Mesa County's DEO** - Designated Election Official, following controversies surrounding Tina Peters, the then-Mesa County Clerk.

2022: **Relaxed Voting Rights** - Colorado passed several laws aimed at 'enhancing' voting rights, including measures to make it *easier for voters to cure any issues with their ballots (like missing signatures or incorrect addresses)*, and *expanding automatic voter registration* to include individuals receiving benefits from the *Department of Human Services*.

2023+: **Ongoing Adjustments** - Colorado continues to adjust its election laws and practices in response to emerging challenges like 'misinformation', cybersecurity 'threats', and changing voter demographics. Efforts include further education on how to use mail-in ballots, improving drop box security, and strengthening the *integrity of signature verification processes*.

Email #1 to Wayne Williams on 2024-11-21

Dear Wayne,

I hope this email finds you well. It was a pleasure to meet you yesterday, and I appreciate the time you dedicated to reviewing the critical security issues within Dominion's software alongside the three Mesa County Reports. For your reference, here are the links to the reports discussed:

Report 1 (Myself and Doug): [Link](#)

Report 2 (Myself and Doug): [Link](#)

Report 3 (Walter and Jeff): [Link](#)

Please note that while I respect the findings in Report 3, I do have some reservations regarding the assertion of malicious intent as the sole explanation. There might be a possibility, albeit small, that these issues could stem from a significant software bug. Nevertheless, the integrity of the voting results remains compromised, necessitating a thorough investigation across all counties nationwide. Unfortunately, the focus has shifted from Dominion to individuals like Tina Peters, suggesting a misdirection in the investigation process. I believe this has caused great harm to the security of our critical election infrastructure.

I would be pleased to have Doug, Walter, or Jeff join our next meeting if you wish to gain further insights directly from them. Additionally, I am prepared to detail other vulnerabilities I've identified in 2021-2022 that challenge the compliance of Dominion's systems with Critical Infrastructure standards, indicating long-standing issues with their product's integrity.

I graciously accept your offer to delve deeper into these matters. My availability is quite flexible next week. Please let me know your preference for day, time, and location; I suggest Castle Rock as a convenient midpoint between us, but I am open to other suggestions.

And if you could provide a list of any additional specific topics or questions you'd like to address, I would love to be able to prepare that ahead of time for our discussion.

Additionally, I've informed the Sheriff about your interest, and he is keen to participate remotely to offer further insights which I believe will be invaluable to our conversation.

Looking forward to your response.

Best regards, and thank you again,

Email #2 to Wayne Williams on 2024-12-05

Dear Wayne,

I am reaching out again following the email I sent to follow up on our conversation last month on November 21st, regarding critical security vulnerabilities in Dominion's voting software, as detailed in the Mesa County Reports. I've again attached the links below for your convenience:

Report 1 (Myself and Doug): [Link](#)
Report 2 (Myself and Doug): [Link](#)
Report 3 (Walter and Jeff): [Link](#)

Due to the absence of response to my previous email, I must underscore the urgency of these matters. The integrity of our electoral process is at stake, and it's imperative we address these issues swiftly. Not only are there potential software bugs, but also the possibility of deliberate manipulation, which could have significant implications for the security of our elections.

An anecdote that someone recently shared with me: "Imagine if you were a bridge inspector, and you see a crack in the bridge. Now you're going, 'Well, there's some other buttresses that'll probably catch it. Is that what you'd do?' No! You would immediately respond, 'You would investigate. You would fix the issue. You would shore up the bridge.'"

It was truly wonderful of you to take the time to witness with your own eyes some of the many back-doors and egregious vulnerabilities built into the Dominion EMS, especially with you being the previous Colorado Secretary of State that entered into the contract with Dominion in 2015 to move Colorado into using Dominion throughout the entire state.

I was elated to hear you say immediately afterword "What you have presented is at least something that I want to take a look at it."

I've been waiting for your response to proceed in doing so since the for over two weeks now. Especially after seeing those 'cracks' in what we've been told about Dominion, I'd really love to help you shore up that bridge! I understand you might have a busy schedule, but the absence of your input leaves us at a critical juncture where inaction could further compromise our electoral infrastructure. I'm sure that would be the last thing you'd want to have happen, so here's what I propose:

Meeting: Let's schedule a meeting next week where we can discuss these vulnerabilities in detail. I suggest we meet in Castle Rock, a midpoint between us, but I'm open to other locations or a virtual meeting if that's more convenient for you.

Expert Participation: I'm ready to arrange for Doug, Walter, or Jeff to join us virtually (or in-person should you feel that is justified) to offer their direct insights. Additionally, the Sheriff has expressed interest in attending virtually to provide his perspective, which could be crucial.

Preparation: To ensure our discussion is productive, please send any specific questions or topics you'd like addressed in advance. This will allow me to prepare comprehensive answers.

Please understand, my intent is not to pressure or embarrass, but to ensure that our national interest in secure elections is not compromised. Your expertise and position could be pivotal in moving this forward.

Looking forward to your reply at your earliest convenience.

Common-Sense Solution: Return Elections to the People

- Threat Dilution, 100% Transparent, 100% Verifiable by ALL -

Voter Registration

Every 2 years, IN-PERSON
Paper voter reg card

"Fair Elections are the only non-violent means of settling political discourse."

WE ARE COMING TO YOU!

Our Current Mission: Ensure that our elections accurately and verifiably represent the will of the people.

Our Goal: Personal visits to counties to educate and offer advice to help fortify the security, accuracy, and verifiability of each County's upcoming Election.

At Each County:

- Public Election Integrity Briefing to explain the Election Ecosystem, Vulnerabilities, and both Short and Long Term Mitigation
- Meetings with local Grass Roots, Election Officials, Commissioners, Sheriffs, and other Countywide and City officials to answer questions and provide suggestions on paths to reclaiming county control and securing their elections
- Recruiting Citizens committed to working the elections
- Bonus that you will find out in person

107 counties so far. Sign up now to get on the route!
